

Klave®
BICYCLE PARKING

*for every situation
a **unique** solution*

4053 people GOING BY BIKE?

There is more to providing an efficient bike shed than just installing a bike rack. Parking bikes requires the right solution. We will be pleased to advise you about your specific situation.

**for every situation
a *unique* solution**

Klaver Bicycle Parking is an organisation run by enthusiasts. With more than 30 years of experience and a customer base of which we can be proud, our focus at Klaver Bicycle Parking is wholly on parking bikes. Our clients know they're in good hands with issues such as lack of space, abandoned bikes and illegal parking. We have the very best bike parking solutions to offer in any situation. We can justifiably claim to have unique solutions to every situation. We are consulted frequently and are highly sought after suppliers in the field of bike parking. We are a forward-thinking organisation in terms of corporate social responsibility and giving back to society. For instance, many of our employees are people with labour market disadvantages.

Forward thinking in the bike parking market as well as with regard to CSR – this is what defines Klaver Bicycle Parking!

32 people **CYCLING TO THE CITY CENTRE?**

Bike parking is an important feature of the urban landscape. Proper bike parking facilities are not only functional, but also take the environment into account. We have the right solution to offer you in any situation.

IDEAS & INNOVATION

Innovation is an important part of our business strategy. We develop, supervise and realise projects and products in the field of bike parking. This integrated approach to our work safeguards the quality of the process. Klaver's mission is 'to make parking bikes a pleasure'. Our bike parking solutions focus at all times on the circumstances unique to our clients. We will be pleased to be of service in drawing up a layout plan, an advisory proposal or a customised solution.

Our constant involvement throughout the process is our guarantee of the quality we will deliver.

ADVICE & DESIGN

Each new situation requires a unique and considered approach. This has been our experience from projects already undertaken. That is why our advice is for a total solution that facilitates the best parking facilities for different bikes. Our total solution is aimed at user convenience, cyclist safety and maximum utilisation of space. Abandoned bikes, illegal parking, outsize bikes or lack of space are frequently occurring issues in bicycle parking. Klaver Bicycle Parking offers you the right advice based on your needs and our expertise. Within the process ranging from product design to realisation we focus our attention on sustainability. The environmental impact has to be minimal, which is why we aim for maximum CO2 reduction within our organisation. We choose our materials responsibly, employ efficient modes of transport and implement savings on raw materials.

Creating a good bike parking solution often appears straightforward, but is it always like that in practice? We provide advice without any commitment in order to give the best possible layout to each bicycle shed.

REALISATION & OPTIMALISATION

Klaver Bicycle Parking works closely together with its clients to reach the best result. Consequently, our planning is reliable and our agreements are guaranteed. We can guarantee the quality of our projects because of our craftsmanship and involvement. The mobility market is in constant motion. In many cases, this requires the fine-tuning or maintenance of existing bike parking facilities. We will be pleased to offer you our expertise in that regard. Naturally enough, Klaver has the following certification: SCC, ISO 14001 and ISO 9001.

We view every issue in the field of bike parking as a problem that we can solve. We will be pleased to help you find the right solution! Please get in touch with us for a discussion without obligation: +31 (0)528 745200.
